

## Severe obstetric complications – state-of-the-art

Thursday 18 May 2017

**10,00 – 12,00**

**Chair: Marian Knight, UK**

Uterine Rupture

Lone Krebs, Holbæk, University of Copenhagen

Excessive blood loss

Hellen Edwards, Herlev, University of Copenhagen

AIP – an update

Sally Collins, Oxford, UK

Peripartum cardiomyopathy

Anne Ersbøl, Rigshospitalet, University of Copenhagen

Extreme obesity

Christina Winter, Odense, University of Southern Denmark

Maternal sepsis

Mercedes Bonet, WHO

**13,00 – 16,00**

**Chair: Kitty Bloemenkamp, The Netherlands**

Balanced blood transfusion

Jakob Stensballe, Rigshospitalet, University of Copenhagen

Blood transfusion or intravenous iron?

Charlotte Holm, Rigshospitalet, University of Copenhagen

Maternal deaths in the Nordic countries

Siri Vangen, University of Oslo, Norway

Cesarean section rates and maternal morbidity in Italy

Serena Donati, University of Rome, Italy

Severe morbidity and near miss in South Africa

Salome Maswime, Witwatersrand, Johannesburg

Endometriosis and SHIP

Griet Vandenberghe/Janne Foss Berlac, Loeven University Belgium and Hillerød, University of Copenhagen

Cervical incompetence/abdominal cerclage

Kirstine Sneider, Hjørring, University of Aalborg

Neonatal outcome

Aura Pyykönen, University of Helsinki, Finland

## **Severe Obstetric complications – methodological research issues**

**Friday 19 May 2017**

**09,00 – 12,00**

**Chair: Elizabeth Sullivan, Sydney, Australia**

### **Definitions**

INOSS definitions

Timme Schaap, University of Leiden, The Netherlands

### **Audit and Delphi**

A new approach to Audit using the Delphi procedure

Timme Schaap, University of Leiden, The Netherlands

### **Registers**

Nordic, Dutch and Australian Medical Birth Registers and severe obstetric complications

– strength, possibilities, challenges and limitations.

Karin Källen, Sweden

Ulrik Kesmodel, Denmark

Mika Gissler, Finland

Kari Klungøy, Norway

Timme Schaap, The Netherlands

Reynir Geirsson, Iceland

Elizabeth Sullivan, Australia

### **PhD dissertation**

**14,00**

**Lotte Berdiin Colmorn: Cesarean section and severe complications at delivery**
